Summary

Backend-focused Software Developer with hands-on experience in building RESTful APIs, scalable web applications, and database-driven systems using Java, Spring Boot, PostgreSQL, and JavaScript. Familiar with backend development concepts including API integration, debugging, scalability, and Agile workflows. Currently expanding expertise in Node.js and Express.js development.

Technical Skills

Languages: Java, JavaScript, SQL

Backend: Node.js, Express.js, Spring Boot, Hibernate, JDBC, REST APIs

Frontend: HTML, CSS, React.js

Databases: PostgreSQL, MySQL

Tools: Git, Maven, Postman

Concepts: Backend Development, CRUD Operations, API Integration, Debugging, SDLC, Agile Methodology, OOP Concepts, Data Structures & Algorithms

Education

Angadi Institute of Technology and Management, Belagavi

Bachelor of Engineering – Artificial Intelligence and Data Science

Dec 2021 – Jun 2025

CGPA: 7.3

Experience

JSpiders BTM

Java Full Stack Developer Intern

Jan 2025 – Jun 2025

Bengaluru

- Developed and tested RESTful APIs using Spring Boot and Postman
- Gained hands-on experience in backend development, debugging, and API integration
- Integrated frontend and backend modules in real-time web applications

Rooman Technologies

Web Application Development Intern

Sep 2024 – Feb 2025

Bengaluru

- Worked on feature implementation and debugging across web application modules
- Gained practical exposure to Agile development practices and sprint workflows

Projects

Hospital Appointment & Medical Record Management System

Dec 2024 – Feb 2025

- Designed scalable backend architecture for managing patient records and appointments
- Developed scalable REST APIs for CRUD operations and backend data management
- Integrated PostgreSQL with Hibernate ORM for persistent data storage
- Tested and debugged backend APIs using Postman

Smart Bookmark App

Feb 2026

- Developed a smart bookmark management application using JavaScript and backend technologies
- Implemented CRUD operations for saving, updating, and deleting bookmarks
- Built RESTful APIs and integrated frontend with backend services

AI-First CRM HCP Module

May 2026

- Built backend-driven AI CRM platform for healthcare professional interaction management
- Integrated scalable backend APIs with React frontend for real-time workflows
- Used LangGraph, FastAPI, Redux, and Groq LLM for AI-powered interaction handling
- Implemented API-driven AI workflows with conversational interaction management

Certifications

- Java Full Stack with React.js – JSpiders Training Center
- SQL – JSpiders Training Center
- Web Development Internship Certification – Rooman Technologies
- State-Level KSCST Project Exhibition Certificate
